AGITATOR SELECTION:

For a better selection of the Agitator it is necessary to take into account the Density and Viscosity of the product, and to know the type of agitation required so that the mixing time is optimal.

Speed RPM	Agitation	Mixed	Element	Photo
1500	Strong	Dissolution	Marine Helix	
3000	Very Strong	Dispersion	Cowles Disc	

DISSOLUTION: When a solid dissolves in a liquid.

DISPERSION: When a solid does NOT dissolve in a liquid.

MODEL	RPM	Power kW	Maximum Density Kg/dm ³	Maximum Viscosity cps	Helix / Disc
BF-100 1500/0.75	1.500	0.75	1,5	2.000	1
BF-100 3000/1.5	3.000	1.5	1,8	5.000	1
